Air Conditioner

CONNECTED APPLIANCE

Quick Start Guide

Westinghouse

Getting Started

Welcome

This guide will help you to quickly set up your air conditioner so you can use all its connected features.

With the **+home** app you can remotely control your Westinghouse connected appliances at all times from wherever you may be. Discover the numerous features and functions of your air conditioner from the app.

Download on the App Store

GET IT ON Google Play

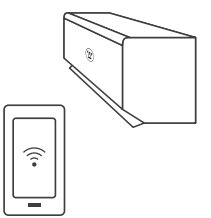

Please Check

Your air conditioner is installed according to the user manual/installation manual.

Your mobile device operating system is either Android 7.1 or iOS 15 (or later).

You have a secure wireless 2.4GHz network available.

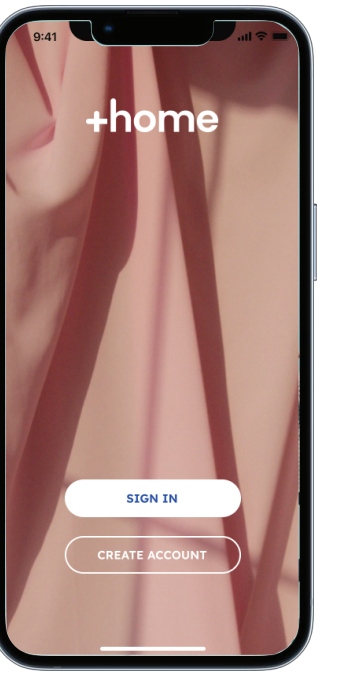

You will need to install the app and create an account to use the connected features of the appliance. Internet and wireless network connections are required to use the full features of the app and the air conditioner.
Minimum requirements, apps and services are subject to change without notice.

Create Account

Download and install the **+home** app to your mobile device. Sign in or create an account.

Have your wireless network password ready.

Have your air conditioner remote control on hand.

Connecting

Make sure that your mobile device has Bluetooth turned on and is connected to the same wireless network that you want to connect your appliance to.

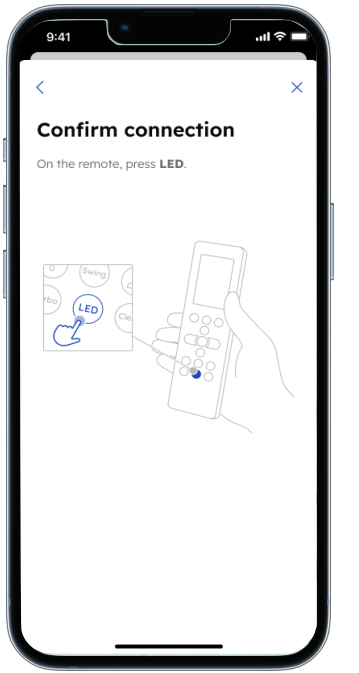

Turn on your air conditioner and follow the instructions in the app.

Confirm Connection

On the remote, press the SET button to select the wireless function. Then press OK and wait until the wireless network symbol starts blinking on the appliance.

Finally, press the LED button to confirm the connection.
