

5.1kW split system reverse cycle air conditioner featuring wireless connectivity, inverter compressor, DC fan motor, Super ion filter & bio filter, 3D air flow, Follow-Me, LED remote, demand response capable. 5.1kW cooling/6.1kW heating capacity.

Product Details

FEATURES

DC Inverter technology	Sleep Mode	Self Clean function	Turbo Mode
FollowMe	3D Air	Connectivity	

BENEFITS

Enjoy a peaceful nights sleep

Sleep Mode is designed to create the ideal sleeping environment, providing you with ultimate comfort and more energy efficiency*. The Sleep Mode feature automatically adjusts the temperature to maintain optimal comfort throughout the night gradually increasing or decreasing the temperature as you sleep, preventing excessive cooling or heating and creating a quiet and uninterrupted sleep experience.*Based on Sleep Mode versus Normal Mode operation of Westinghouse air conditioner unit.

Effortless maintenance

With a touch of a button, the self-clean function effortlessly initiates a thorough cleaning cycle that helps remove the build up dirt, mildew and bacteria from the units components. It does this by cleaning the internal mechanisms of the air conditioner to help maintain a healthier environment.

Boost your cooling or heating

Turbo mode activates fast cooling or heating to bring your room to a desired temperature quickly and effectively. Use this on those extra hot or cold days to get comfortable quickly.

DC Inverter Technology

Our advanced DC Inverter technology offers efficient cooling and heating with less energy consumption*. The DC Inverter adjusts the cooling and heating output to meet your desired temperature, providing consistent comfort with less energy waste. *Based on air conditioners with non-DC inverter technology

Comfort controlled

FollowMe adjusts the temperature based on your remotes location, always ensuring youre comfortable, rather than adjusting to a sensor near the ceiling. No more guesswork required to be nice and comfy.

Even air flow in all directions

Our 3D Air circulates air in all directions, from left to right and top to bottom ensuring everyone is in optimal comfort throughout the room. Control is in your hands with the ability to turn this feature on and off based on your comfort level.

Control your comfort from anywhere with our +Home app
You'll love the convenience of being connected to control your home's temperature from anywhere, at any time. With the touch of a button on your smartphone, you can adjust the temperature, set schedules, and monitor energy usage from the comfort of your couch or on the go. Our +Home APP* now also integrates with the Google and Amazon voice assistants, for the next level of control at home.*Internet and mobile device required.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	5
Type	reverse cycle

SPECIFICATIONS

Capacity cool watts	5100
Capacity Heat watts	6100
Current rating amps	13
Power Supply Connection Point	outdoor unit
Colour of fascia	White
Compressor type	rotary
Indoor sound pressure dBA high setting	45
Indoor sound pressure dBA low setting	37
Outdoor sound pressure dBA	59
Indoor air circulation max (ltr/s)	500
Ambient temperature range minimum	-15
Ambient temperature range maximum	50

SPECIFICATIONS

Moisture removal ltr/hour	0.41
---------------------------	------

Refrigerant weight (g)	1300
------------------------	------

Refrigerant type	R32
