Product Details

FEATURES

SensorWash

Fast wash cycles

Quiet operation

FlexZone Wash

Adjustable top basket

AquaStop antiflood protection

Delay Start - 1 - 24 Hours

BENEFITS

Adjusting the right cycle for you

Sensing the level of grime on your dishes, our super smart sensor adjusts the temperature on top of the wash cycle length to ensure the best results. As well as saving water.

Faster wash, when you need it

When it comes to doing the dishes you can choose the program that suits you, whether you have a few dishes, half a load or a full load you can choose our Fast 30, Time Saver or Half Load program.

Less dishes use less water.

Every home is different, so is every load of dishes. Our FlexZone half-load wash option saves water and energy when youve got less dishes to wash.

Make room for larger items

Those extra large items can now fit with ease in the bottom basket with our height adjustable upper basket. Even if its fully loaded, it's easily lifted to fit the most awkward item underneath.

Anti-flood for kitchen protection

Sometimes things are out of your control, our aqua control function is designed to step in when you need it most. The anti-flood device automatically cuts off the water to avoid flooding, ensuring your kitchen is looked after.
