Adjustable Spillsafe™ glass shelves Catch spills and clean with ease
Adjustable interiors	Easy glide humidity controlled crispers		

BENEFITS

Understanding new capacity and energy ratings
From the 15th August 2021, the way refrigerators are tested to calculate Energy Star Ratings and energy consumption have changed. This means that the capacity and energy rating calculations have changed, however the product remains unchanged. Be sure to check all new ratings to ensure that your comparisons are consistent with the new standards.

Dual FreshSeal Crispers
Dual FreshSeal easy glide crispers. Designed with your comfort in mind, the dual sealed easy glide crisper bins with humidity control open effortlessly and provide easy access even when they're full.

Healthy continuous fresh water
The Westinghouse French Door Fridge with ice and water helps keep your family healthier and hydrated. With easy access to filtered water from the slimline in-door water dispenser, no one will need to go thirsty again.

Adjustable storage solutions with FlexStor™
As your family changes and grows, so do the requirements of your fridge. With FlexStor™ you enjoy the convenience of being able to easily change the configuration, whatever your needs. Adjust the height and position of the door bins to fit in large and smaller items and arrange your fridge your way.

FlexSpace™, it's size redefined
With a busy lifestyle and a growing family, you can always do with more space in your fridge. That's why Westinghouse created FlexSpace™, which is designed to maximise storage, flexibility and access to meet your ever-changing needs. Big enough to handle even the biggest grocery shop, you'll be able to fit in all your food and drinks with ease.

Automatic icemaker means you will always have ice available
There is nothing more refreshing than an icy cold drink on a hot day. With the automatic icemaker you will always have ice available whenever you need it, all stored in a handy extra large drawer.

Fingerprint resistant stainless steel
Little hands or sticky fingers wont be a problem with easy-clean fingerprint resistant stainless steel.

Spillsafe™ glass shelves
From time to time, accidents happen. And when they do, you want to minimise the extent of the damage. Spillsafe™ shelves can capture up to one litre of liquid, so you can contain the spillage to just one shelf instead of the whole fridge.

Easy glide drawers and specialised compartments
Easy glide freezer bins and fridge crispers give easy access without the effort even when theyre full. Humidity controlled crispers keep fruit and vegetables fresher, while deli drawers help isolate odours. Handy storesafe™ drawers put special items safely out of reach

Endless possibilities with FlexSpace™
Designed to suit your ever-changing needs, the extra spacious French door design delivers a wider fridge capacity with FlexSpace™. Perfect for party platters or lots of fresh food, you'll love having everything at eye level so you can easily check all the contents with just a glance.

Space for everything
When it comes to being organised you can never have too much space. With two door access to both your fridge and freezer, you won't know how you didn't have it before. Being able to see everything at a quick glance has never been so easy.

Clever, spacious freezer
If the classic French door design is something you want to see across your freezer space too, our four door french door fridge is the clever addition to your kitchen space. With 7 freezer compartments organising your freezer has never been so easy. Keep your freezer organised, tidy and quickly find what you need.

Designed to fit a 90cm space with a huge 600L capacity
Designed to fit neatly into an Australian 90cm kitchen cavity. Clever engineering allows it to be installed with minimum gaps on the sides meaning maximum storage for all your fresh produce.

Fits into a 90cm cavity

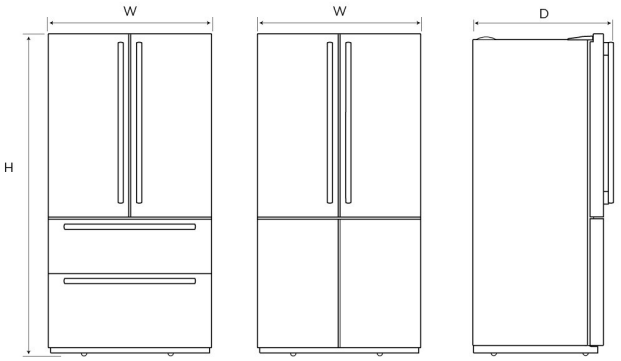
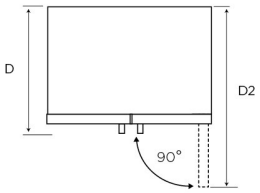
Half-width plastic basket	1

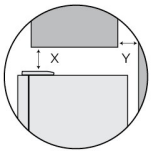
Dimensions



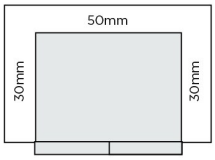


Front face of bench aligned to front corner edge of cabinet.

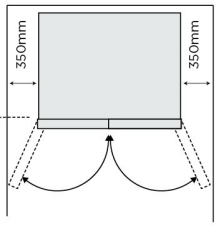
Minimum Recommended Airspaces



If you have a cupboard above the refrigerator with a rear gap of less than 100mm (Y), recommended minimum clearance at the top of the refrigerator increases from 30mm to 70mm (X).



Please note: Doors are designed to sit proud of cabinetry (not flush).



When positioned In a corner area, spacing of at least 350mm on the hinge side will allow the doors to open enough to enable the removal of bins and shelves.
